Blue Devils Upset Lake Worth By Score Of 30 To 0

Pahokee football fans who have been seeing, with a few exceptions, rather mediocre football playing on the part of the Pahokee Blue Devils for the past few years were thrilled on Lair Field Saturday night when a scrappy Pahokee eleven launched a spectacular aerial attack to subdue and upset the favored Lake Worth rTojans, 30 to 0.

As the third quarter neared the end Tro-jan Fullback Snapp fumbled a bad jan ruinack snapp tumbled a bad pass from center on fourth down and the ball was grounded on the Trojan 6 where the Blue Devils took over. YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today -keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in-first with promises of "security"-and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for-and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory, Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower sandards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists
—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, givic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out-giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

General Federation of Women's Clubs American Farm Bureau Federation National Grange Veterans of Foreign Wars National Conference of National Conference of Catholic Charities American Protestant Hospital Association

American Legion National Association of Small Business Men United States Chamber of Commerce
National Association of
Retail Grocers
National Retail Dry Goods
Association American Bar Association

 Doctors of this Nation are grateful that the people refused to be woodd by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the prideful security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponisored by doctors, insurance companies, hos-pitals, fraternal organizations—by industry, agriculture and labor.

in America-70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness-ar reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind.

Maintained with honor and used with sincerity—that right will guarantee forever that

Ought To "Polish Up" Her Traffic Manners!

ost of yesterday over at House. "Tiny" Fields, the Court Hous the biggest and fastest-talking of our three policemen, was holding forth about his traffic troubles.

"Women drive just as good as men do," Tiny said, "and just as bad. For instance—a girl in a convertible today. She started a threeblock tie-up all by herself.

"She's creeping down Main Street-left hand stuck out and sort of waving around. Never turns right or left, never stops. of course, everyone behind her thinks she's signaling about

mething. Nobody dares to pass. When I stop her and ask what's up, she smiles sweetly and explains that she's drying her nail polish!" From where I sit, that girl's typi-

DEPOSITS INSURED **UP TO \$10,000**

Deposits in this bank are now insured up to \$10,000 by the Federal Deposit Insurance Corporation.

The maximum amount previously covered by this insurance was \$5,000. This increase in coverage is made possible largely by the excellent safety record of banks since the Federal Insurance Corporation was formed in 1933.

Each depositor is insured up to this new maximum of \$10,000 for all deposits held in the same right and capacity.

Good bank management is the underlying factor in the protection of depositors' funds. Our bank policies are formed with this basic principle always uppermost in mind.

In addition, we are glad to provide the extra measure of protection which Federal Deposit Insurance gives our depositors. To qualify for this insurance, our bank must meet rigid standards. Adherence to those standards is checked regularly through bank examinations.
